I had hernia surgery and the doctor said I shouldn't do stressful things till after the end of the year, nonetheless I have been evangelising around.

Please share your prayer requests with your Ministry Partner.

Please be praying with me and my team. I am healing very fast so I may join them as they go back to the towns and villages we have evangelised to visit the souls that gave their lives to christ and to encourage them. After my surgery we set that target to go back and visit. So next year we will look at other areas.

Praise report – Please share the testimonies of what God is doing your ministry and/or life.

I thank God very much for his work in my life. After my surgery the doctor said I will be completely healed and fit after 7 months. But thanks be to God I am healing rather faster. The surface wound is completely healed and I know the inner wound is gradually healing as well. Praise be to God that in the next two or three months I should be able to join my friends to at least complete our mission for the year.
