

# The Winter Family

**The Winter Family to Montevideo, Minnesota.**

**March 2023**

Greetings from Minnesota! I am writing to notify you of our current situation. I visited the doctor (an orthopedic specialist) yesterday. I have been dealing with severe ankle pain since the beginning of the year. The doctor told me one of my little tendons in my foot is eroding and one of the bones is sitting slanted instead of flat. The doctor proceeded to tell me that for a thirty-seven-year-old this is not a good thing. Therefore, I will be needing surgery to hopefully fix this injury. The recovery time for this surgery will require about eighteen weeks. I ask for your prayers during this time.

For well over a year, I have been working a job in order to help us with our financial situation, because we do not have full support. Unfortunately, for a space of time I will not be able to work, which means financially this could impact us. We are trusting the Lord to supply but felt you needed to know so you would know how to better pray for us.

I am hoping this surgery will fix the problem and get me back to moving around as I am used to doing. Right now, the pain is making it very hard for me to walk and perform some of my jobs and duties. I again ask for your prayers, and am trusting in the Lord to fully provide.

I thank the Lord for everyone of you. I pray you are well. May the Lord continue to bless and use you for His glory.
